Additional Information / Prior Funding History:

Project Description/Justification:
 The Bethel Readiness Center in Bethel is in need of restoration due to our backlog of deferred maintenance. Included projects are for the sustainment or restoration of the Armory. Without these projects being completed, the building will remain in a failing condition which prevents the proper training of assigned personnel to meet their mission in the global war against terrorism.

Projects to be completed are replacement of the outside stairwell, replacement of the exterior fire escape on the front of the building, replacement of the 3000 gallon above ground fuel tank with a 1500 gallon fuel tank, and replacement of restroom stalls.
